WORK EXPERIENCE

Associate Consultant II EY

09/2021 - Present

Achievements/Tasks

- Worked as UI developer creating responsive apps mainly building POC's and application for clients.
- Worked on designing, development and testing phase in multiple projects during this course of time.
- Using Custom Components, an Azure Blob Connection to Dynamics 365 was created. This made it possible for the user to access Blob Storage using features that weren't included by default.
- Created custom connectors for Low Code Platforms by consuming APIs.
- Won the EY Spot Award twice in the same year.
- Winner of internal Hackathon.

Web Developer (Intern) Travancore Analytics

04/2021 - 05/2021

Achievements/Tasks

- Built a web scraper for filtering top three Google search results and displaying it to the user.
- The UI was built using HTML & CSS.
- Flask was used for web scraping.

PERSONAL PROJECTS

Let's Chat - Real Time Chat Application

- A real time chat application built using Socket.IO and React JS. Created a server using Express JS to handle the requests from frontend.
- The users can login to a chat room and talk in real time. The people who are available in the chat room will be shown.
- Made use of Tailwind CSS, React-Emoji and many other npm packages.
- Demo : <https://lets-chatt-now.netlify.app/>

Codepen - Clone

- Dynamically render HTML CSS and JS from user input and display the output on screen.
- Used codemirror npm package for configuring the code editor.
- Demo : <https://frontenddevv.netlify.app/>
