MongoDB

## EXPERIENCE

### Travancore Analytics - Web Developer (Intern)

April 2021- May 2021

Built a web scraper for filtering top three Google search results and displaying it to the user. The UI was built using HTML&CSS and Flask was used for web scraping.

## PROJECT

### A Deep Emotion Classifier for Enhanced Depression Detection

- Used **Machine Learning** to detect various levels of depression
- Created the entire dataset and trained the model
- Created a frontend and connected it to the backend using **Flask** for testing the model and it gave an **accuracy of 88%**

### My Library

- **Full stack web app** to create a personal library
- Learned the working using frontend and backend
- Built using **ExpressJS** and **Mongo DB**

### Weather App

- Fetch the details from an **API** and displaying the details

### To do List

- Created using **ReactJS**
- Learned the basic **CRUD operations**

## ROLES AND RESPONSIBILITIES

- **Treasurer** of College Photography Club for the year 2020-21
- Have **taught programming** for high school students
- Conducted **Interschool** and **Intercollege** photography competitions
- Have taken **workshops** on the basics of photography and videography
